Local Notice to Mariners **# 1/2012 – 9th January 2012**

REBUILDING OF FERRY SLIPWAY AT ROCK **10th January 2012- 24th February 2012 (APPROX)**

1. Padstow Harbour Commissioners have appointed contractors to demolish the existing slipway in position 50 32.68' North, 004 55.5' West and rebuild a new (slightly larger) slip in the same location.
2. Work to demolish the existing slipway will begin on the 10th January 2012.
3. Concrete supporting piles will be installed during the week commencing 16th January and these piles will remain proud of the beach until the new slab is cast on top.
4. This could present a danger to navigation during spring high tides and as such, the work area has been marked off with 10 appropriately labelled marker buoys.
5. All vessels should give the work area a wide berth and should not enter the buoyed off area.

Capt. R. M. Atkinson
Padstow Harbour Master
