Local Notice to Mariners **# 2/2018 issued 27th March 2018**

Completion of Tidal Gate Works & Reinstatement of “New Steps”

- As of today (27th March) the Environment Agency / BAM Nuttall have completed the main works to the Padstow Tidal gate.
- The gate is now back in operation and the inner harbour will now resume the normal tidal cycle of being accessible at High Water plus or minus 2 hours, with 3 metres water depth impounded in the harbour between these times.
- The “New Steps” are also back in action as the high volume pumps that were used during the works have now been removed.
- Some minor repainting of the stop log channels is planned for after Easter but this will be carried out from a crane basket once the lock gates are closed, so will not affect access.
- Please cancel notices 13/2017 and 1/2018.
- For more details please contact Padstow Harbour on 01841 532239.

Capt. R. M. Atkinson
Padstow Harbour Master
