### **Local Notice to Mariners** **# 4/2013 – 3<sup>rd</sup> July 2013**

### **New 15m pontoon being installed at Port Arthur, Padstow.**

- On the 4<sup>th</sup> July 2013, Padstow Sailing Club are going to install a 15 metre long by 2.5 metre wide pontoon on a site near the end of the disused outlet pipe at Port Arthur, Padstow.
- Appx position 50 32.2N, 004 56.0 W.
- The pontoon will sit on the Western edge of the channel, amongst the small tender moorings - so will not obstruct passage of larger boats to and from the deeper moorings.
- The pontoon will be accessed by use of a small tender on a running mooring, so any small dinghies intending to pass between the pontoon and the shore should be careful not to foul the lines.
- The pontoon will be marked by a Fl G 4s light on a 3m high pole, all of which will be maintained by the sailing club.
- For more information, please contact John Davis, Rear Commodore at Padstow Sailing Club.

**Capt. R. M. Atkinson**  
**Padstow Harbour Master**
